About Me

I am a driven second-year Computer Science and Engineering student at VIT Vellore, building a robust foundation in software development and algorithmic problem-solving. Currently, my core focus is on mastering programming languages like C++ and Python, tackling Data Structures and Algorithms (DSA), and developing responsive web applications using React and JavaScript. While my degree includes an upcoming specialization in the Internet of Things (IoT), my immediate passion lies in pure software engineering, writing clean code, and applying my technical toolkit to build efficient, user-centric projects.

Education

- **Vellore Institute of Technology (VIT) | Vellore, Tamil Nadu**
  Bachelor of Technology in Computer Science and Engineering (Specialization in IoT)
  Expected Graduation: May 2028 | Current CGPA: 9.54/10.0

- **DAV School Chhal | Raigarh, Chhattisgarh**
  Higher Secondary Certificate (Class XII)
  Graduation: May 2023 | Percentage: 88%

- **DAV School Chhal | Raigarh, Chhattisgarh**
  Secondary School Certificate (Class X)
  Year: May 2021 | Percentage: 94%

Relevant Coursework

- Data Structures and Algorithms (DSA)
- Object-Oriented Programming (OOP)

Honors & Achievements

- **Branch Topper:** Ranked 9th in the CSE (Internet of Things) branch during the first year of B.Tech at VIT Vellore.
- **Branch Topper:** Ranked 3rd in the CSE (Internet of Things) branch during the second year of B.Tech at VIT Vellore.
- **JEE Mains:** Secured a 95.05 percentile in the Joint Entrance Examination (JEE) Mains among 10+ Lakh candidates.

Skills

Technical Skills

- **Programming Languages & Core:** C++, Python, Java, Data Structures and Algorithms (DSA)
- **Web Development:** HTML, CSS, JavaScript, React

Soft Skills

- Analytical Problem Solving
- Team Collaboration & Communication
- Adaptability & Quick Learning

Projects

- **Real-Time ASL Tracker:** *This project is an end-to-end Machine Learning application that detects and translates American Sign Language (ASL) alphabets in real-time using a standard webcam. Instead of relying on pre-existing datasets, I engineered a custom data collection pipeline to capture live 3D hand landmarks, trained a classification model from scratch, and deployed it for instantaneous, zero-lag predictions.*
- **Expense Tracker:** *Built a responsive web application using React and JavaScript to help users log and analyze daily expenses.*

Extracurricular Activities & Leadership

- **Mozilla Firefox Club | Member** *(February 2026 – Present)*
  - Organized the highly successful SOTY 4.0 event during RIVIERA week.

- **Code2Innovate | Participant** *(February 2026)*
  - Collaborated in an intensive 48-hour hackathon, rapid-prototyping technical solutions.

- **Gravitas Committee | Volunteer** *(September 2025)*
  - Volunteered for Halls and Refreshment duties and successfully managed multiple events within strict timelines.

Certifications

- **Mastering C++ with DSA** – PW Skills
- **Python for Data Analysis and Visualization** – VIT Value Added Course

---

Languages

- **English:** Fluent / Professional
- **Hindi:** Native / Bilingual
- **Spanish:** Beginner
